A *garbuix*. An imbroglío. Delight and enthrallment.
Five women, five countries and a many languages.
Laughter aplenty. Bagfuls
Music, shouting, words and silence. And a bag.
Adults, kids, grandparents, the whole family will have a good time.
A bicycle. More bags. Bedlam. No story.
Pure fun and games. Unending. And a bear?
They string themselves up, pull and catch each other before falling.
And laugh. Energy, always more energy. Bagfuls.
No time to lose: Let's have fun!

Whoever you are, wherever you come from, this show is for you!

What is The Winter Circus project?

The "Circ d'Hivern" (Winter Circus) is one of the most important and stable circus creation PROJECTS in Catalonia.

The Circ d'Hivern came into existence in 1996 with the intention of promoting the creation of stable companies related to circus in the region. It aims to offer new forms of circus shows, for all audiences and suitable for theatres. For the past 20 years a new show is produced every December and performed 28 times during the Christmas and New Year holidays in the Theatre of the Ateneu.

After that the show is produced and distributed internationally.

What is the Ateneu?

The **Ateneu Popular 9Barris** is a public, community managed, socio-cultural centre that came into existence in 1977 when a group of neighbours started occupying the space. Their project was to combine culture and territory as a motor of social transformation.

At first circus artists installed their caravans on the land, provoking curiosity and interest in circus Arts throughout the neighbourhood. Thus came into existence the first Catalanian circus school and with it a stable circus presence in Barcelona.
